PRESS RELEASE – JAN 20, 2025

JET PARTS ENGINEERING ANNOUNCES ACQUISITION BY TRANSDIGM GROUP

Seattle, WA – Jet Parts Engineering (JPE), a recognized leader in the development of PMA parts, DER repairs, and MRO solutions for commercial aircraft, today announced that it has been acquired by TransDigm Group (NYSE: TDG), a leading global designer, producer, and supplier of highly engineered aircraft components.

The acquisition was completed as part of TransDigm's previously announced transaction that also includes Victor Sierra Aviation Holdings. Jet Parts Engineering will continue to operate under its existing brand, leadership team, and customer-first approach.

"This transaction represents an exciting milestone for Jet Parts Engineering," said Anu Goel, President and CEO of Jet Parts Engineering. "TransDigm's long-term ownership philosophy, focus on proprietary aftermarket products, and commitment to engineering excellence align closely with JPE's business model. This partnership enables us to continue investing in our PMA, DER, and MRO capabilities while maintaining the service, quality, and responsiveness our customers expect."

Jet Parts Engineering has established a strong reputation as a trusted aftermarket partner to airlines and MROs worldwide, offering FAA-approved PMA parts and repair solutions that reduce total cost of ownership, shorten lead times, and support fleet reliability. Under TransDigm ownership, JPE will benefit from additional scale, resources, and long-term investment to support continued product development and portfolio expansion.

"Jet Parts Engineering is a well-respected engineering-driven organization with a strong proprietary portfolio and deep customer relationships," said a TransDigm spokesperson. "We are pleased to welcome JPE to the TransDigm Group and look forward to supporting its continued growth within the global aviation aftermarket."

The acquisition underscores Jet Parts Engineering's commitment to sustainable growth, innovation, and delivering value-driven aftermarket solutions to its global customer base.

About Jet Parts Engineering

A recognized leader in the development of PMA parts, DER repairs and MRO services for commercial aircraft, Jet Parts Engineering is devoted to providing a better spare parts solution to our worldwide network of airline and MRO partners. We help our customers battle the increasing cost of component maintenance with our lower spares pricing and greatly reduced lead times. Our ecommerce portal provides customers immediate access to price, availability, technical information, and the ease of order placement and tracking. Jet Parts Engineering's staff is comprised of some of the best and brightest in the industry – our people are the best part. Visit www.jetpartsengineering.com to learn more.
